

Hudson City School District Campus Ancillary Master Plan Hudson, Ohio

The proposed Hudson City School District campus ancillary master plan is designed to integrate a new 7,000 seat athletic complex with the existing High School & varsity baseball facility, and includes the restructuring of eight tennis courts, new athletic offices & support spaces, new locker rooms, restrooms and training facilities, additional baseball, softball & field hockey fields, pedestrian walkways and parking facilities. The project is currently in its fundraising phase, and is estimated at approximately \$5.5 million.
